WMF 950 S

ENTER THE PROFESSIONAL WORLD OF COFFEE
COMPACT, RELIABLE, TASTEFUL

LARGE STOCK OF BEANS

The bean hopper has space for 750 grams of coffee beans and can be removed for easy cleaning.

COMPACT AND HANDY

The WMF 950 S takes up hardly any space, making it the ideal professional machine for small offices and kitchens.

SIMPLE AND INTUITIVE OPERATION

Simply scroll through the large selection, tap the 7" colour touch display to choose the beverage you want and the machine will get to work.

QUIET OPERATION

The professional grinder and high-capacity brewer work exceptionally quietly to prepare your coffee.

OVERFLOW PROTECTION

The drip tray is monitored so that it can't overflow. The built-in protection mechanism stops the machine and the display indicates that the drip tray needs emptying.

PROFESSIONAL COFFEE QUALITY FOR YOUR BUSINESS

The WMF 950 S offers the perfect coffee experience at an attractive price and provides a superb introduction into the professional coffee world of WMF. Whether for small businesses, start-ups, co-working spaces, serviced apartments, hair salons or fitness studios – the WMF 950 S is sure to delight the sophisticated tastes of coffee aficionados.

DELIGHTS TEAM AND CUSTOMERS ALIKE

Offering a reliable output of 50 cups a day on average, the WMF 950 S is the first choice when it comes to serving coffee in small and medium-sized companies, offices or cafés. Thanks to its simple operating concept, it also impresses in mobile conference catering and hotel settings.

A SUPREME SELECTION

Latte macchiato, cappuccino, espresso, ristretto or café crème? 20 beverages are already preset to WMF specifications. Further individual creations, such as decaffeinated coffee, are easy to store using the 7" colour touch display. And a hot water spout for tea extends the choice of hot beverages available even further.

EXPERIENCE PREMIUM CONVENIENCE

The WMF 950 S delights users with its quality and how convenient it is to use. For example, the coffee strength and cup volume can be varied individually at the touch of a button. If the water container needs refilling, the display lets you know. And cleaning couldn't be simpler thanks to the patented Click+Clean solution: simply connect the milk hose to the hot water spout using the adapter and the entire milk system will be hygienically rinsed through.
